The jurisdiction of the Court is invoked pursuant to :

28 U.S.C. SS 112, New York State; 28 U.S.C. SS 139 ( S) Corporation;  
28 U.S.C. SS 1400 (a ) Copyright Action 820 Property Rights;  
( 5 U.S.C. SS 552 ) Privacy Act ; ( Title 17 U.S.C. Of The Copyright Act SS 101/  
501 – 504 Of The Unfair Competition Act and Statutes/ Trade Secrets Act SS  
45 – 49 ., etc.

## **BACKGROUND**

### **Procedural History**

NOTICE IS HEREBY GIVEN that Plaintiff, Colonel A. Adams request a refile reconsideration remand motion based on the following circumstances of law and statutes concerning previous case ( 1: 05 -CV- 5211 (SLT) (LB) and new Action to be filed concerning second Infringement by parties, and flawed Court Records and Judgment concerning plaintiffs U.S. Constitutional rights as an copyright author and citizen.

In addition, pursuant ( " Discovery ") Rule SS 13, 24 – 31, 46, 52(4), 53 C.J.S 635, A & E / 78 Motions & Orders 60/ 131 – 133 A & E, C.J.S.; because items are critical to previous case and new application it is essential to the merits and record of the Court that these Federal Questions be addressed for new trial concerning second infringement matters and case. In reference to issues concerning previous case, plaintiff wasn't aware of some of the options and standards concerning Motions & Orders relating to continual amending of motions for reconsideration in District Court when there is an clerical error that's why plaintiff called the Pro Se clerk for advice; If the Court would look at its' own Judgment and Order Brief the Court will see an clerical error on the time line dates of the first event of the infringement date November. 7, 2005 , which is incorrect for record, the correct date time line is November. 10, 2004 its on first Complaint of plaintiffs action;

**Discussion****A. Legal Standard**

As I Quote The Court:

As the Supreme Court Recently held in *Bell Atlantic Corp. v. Twombly*, \_\_ U.S. \_\_, \_\_, 127 S. Ct. 1955, \_\_ L. Ed. \_\_ (2007), a complaint must be dismissed pursuant to Rule 12(b)(6) of the Federal Rules of Civil Procedure for Failure to state a claim upon which relief can be granted if it does not plead " enough facts to state an claim to relief that is plausible on its face". *Id.* At 1974 (rejecting the traditional 12(b)(6)\*\*( Clerical Error ) standard set forth in *Conley v. Gibson*, 355 U.S. 41, 45-46 ( 1957 )). To survive an motion to dismiss, the factual allegations in the complaint " must be enough to raise an right to relief above the speculative level. " *Bell Atl.*, 127 S. Ct. at 1965. If a plaintiff has " not nudged [ his ] claims across the line from conceivable to plausible, [ his ] complaint must be dismissed. " *Id.* At 1974.;

Plaintiffs' Complaint on 06/29/07 was dismissed in its entirety with prejudice, unfairly without all the Evidence from defendants, filed in Court Records ( " Discovery " ) and a Writ of Error was filed pursuant to Rule SS 13, 24 – 31, 46, 52(4), 54, C.J.S. 635, A&E} MO State EX. REL. *Howe v. Hughes* , 343 Mo. 827, 123 S.W. 2D 105 ( 1938 ); Plaintiff also contest that concerning original U.S.C. Drawing, Registration Number#. V au.591-803, was not in Court Record, nor Ordered from the U.S.CO. ,according to U.S.C.O rules and regulations, ( Compendium I, II: Copyright Office Practices ( Chapter 1900 ), RECORDS, INDEXES, AND DEPOSITS OF THE COPYRIGHT OFFICE: INSPECTION, COPYING, ADDITIONAL CERTIFICATES, AND OTHER CERTIFICATES;

( Continued on Page 4 )

Cont'

Page 4

Section:SS 1902, \*1902.08, 1903, 1903.01[ref. Inspection of Copyright Office Records in General; Materials Not Open For Public Inspection; Copying Copyright; (see) also 1904 and 1906; and 17 U.S.C. 706(b) and 37 C.F.R. 201.2(d);

In reference, to the Courts Opinions concerning controlling data, it is without question that plaintiff has met the criteria to survive an motion to dismiss, based upon the factual allegations of Federal Law and Rules concerning Complaint, plaintiff has raised a right to relief above the speculative level, concerning the previous and second new action involving defendants infringement of plaintiffs' U.S. Copyright design without Permission to broadcast, use, and build, such as in the new case concerning defendants action in the  
**( Observed Date: 07/06/ 09 at 7:00am- thur- 8:00am )**  
episode : Discovery or Science channel 111 ; Beyond Tomorrow 3 -- episode # 8 involving , Don Ferrell and Dawn O" Conner, collaborating to build a Pneumatic Elevator in their home which transgresses plaintiffs' U.S. Copyright claim. Based upon Plaintiffs' claim and title of **ATST & TSSS ( Va u. 591 – 803)** which is a trade- secret, was one of the reasons plaintiff had to amend the first complaint, because plaintiff informed the Court and defendants in Motion for Default Judgment or Reply Motion to Dismiss that Litigation Statement- Form LS ( 17 U.S.C. 706( b) and 37 C.F.R. 201.2(d) ) must be used according to U.S.C.O Rules and Regulations, referenced above in the text. This is the second reason why plaintiff gave the Court and the defendants a Draft of the original art from September.1982, because only the Title is revealed which is also an trade-secret, but Mandatory to register copyright work, and also later, according to U.S.C.O. Regulations works could be up-graded for errors and new related material according to trade-secrets etc., in Supplementation;  
( Continued on Page 5 )

Cont'.

Page 5

Furthermore, as a breach in Federal Statutes and Unfair Competition Act , ( SS 45 – 49,101,106,106a 501 – 504, 706(b)) ; defendants continue to broadcast and sell merchandise described, in first Complaint to Court without any accountability to Laws and Regulations governing U.S. Copyright Procedures and Rights and Protections of Intellectual Property Personnel ( Michael Stillman v. Leo Burnett. Co.

United States District Court, N.D. Illinois, 1989. 720 F. Supp. 1353. see also  
562 F. 2d at 1169

**B. Plaintiffs' Copyright Claim**

On June. 6,2003, plaintiff was issued a U.S. Copyright Certificate for design  
**( ATST & TSSS / Registration # V au. 591 – 803 )**; with the induction of the  
copyright application in the U.S.C.O., plaintiffs' drawing indicates specifically what the  
design is because it's mandatory for registration and protection in case of potential  
infringement violators. The copyright claim consist of Rights to an original exclusive design  
by creating a work in size and structure to support transportation of passengers and  
cargo by the means of an Pneumatic Tunnel with Pneumatic Vehicles Trains or tubes and  
various other capabilities, which are trade-secrets I wish to disclose upon construction of  
project during patent process certification as my right under the 17 U.S.C. ACT concerning  
Supplementation described above in previous text. There are several methods of usage  
plaintiff lay claim to that are trade-secrets , acknowledging that Pneumatic bank tubes used at  
some automata's banks are not new, plaintiffs' claim is original and exclusive because it

### About This Item

#### Work Review

*The Polar Express* was slow to pull out of the station in its theatrical run, but it gathered steam and continued to draw audiences throughout the 2004 holiday season, defying the typical pattern. It would be inaccurate to call it a "little engine that could," though, as director Robert Zemeckis's adaptation of the Chris Van Allsburg book is pretty much a roaring locomotive thrill ride. Zemeckis, who pushed the visual effects envelope with such films as *Who Framed Roger Rabbit?* and *Forrest Gump*, employs a process called "performance capture," digitally translating the movements of human actors into hyper-realistic animation. What the film lacks in personality, it more than makes up for with breathtakingly beautiful snowscapes. However, it threatens to derail in the time-padding action sequences that would be more at home in a video game, as the Express careers up and down mountains and skids across a frozen lake en route to its rendezvous with St. Nick. Keeping the film on track is Tom Hanks, who provides the human host for several characters, including the young boy (voiced by Daryl Sabara), the conductor, and a mysterious hobo who inexplicably camps on top of the train. Further powering *The Polar Express* are a heart-melting, Oscar-nominated ballad ("Believe"), a rollicking showstopper complete with dancing waiters ("Hot Chocolate"), and the instantly recognizable Jerry Lewis tones of prolific voice-over artist Eddie Deezen as Know-It-All, who has a lot to learn when it comes to Santa Claus.

### About This Item

#### From the Publisher

*The Art of The Polar Express* celebrates the transformation of Chris Van Allsburg's celebrated children's book *The Polar Express* into a full-length, animated feature film through a fascinating collection of concept art, production storyboards, and computer-generated renderings. Production designer Doug Chiang shares his original, never-before-seen artwork that evolved into the final motion picture. Weaving these pieces together are candid interviews with the star-studded cast and crew, including Robert Zemeckis and his team of filmmaking visionaries, that deliver rare insight into the film as they divulge the secrets behind their creative process.

#### Synopsis

*The Art of The Polar Express* celebrates the transformation of Chris Van Allsburg's celebrated children's book *The Polar Express*

#### Author Description

Mark Cotta Vaz recently completed his 19th book, a biography of Merian C. Cooper, creator of King Kong which is scheduled to be published by Random House in 2005. Vaz's books on movie history include *Industrial Light + Magic: Into the Digital Realm*, which

## About Us

**Pneumatic Vacuum Elevators LLC** we are an innovative, technology driven company that is revolutionizing how people and goods are transported vertically. By the application of simple principles of physics, no nonsense solutions and the utilization of attractive materials we literally have initiated the transportation within a bubble. We think outside of the box, having our customer's always in mind and with our engineering capabilities second to none, we are proud to design and manufacture safe and reliable elevators in use worldwide. Our design is unique based around our patented technology.

At Pneumatic Vacuum Elevators we proud ourselves to only utilize materials and components of the highest quality available, so as to minimize any maintenance, regular component replacement and service requirements.

Our worldwide networks of over 80 authorized dealers have all received in house technical training at our integrated manufacturing facility in Miami, Florida, USA. We now have customers on 5 continents and it is in this way we can assure them the best quality of installation and service.

PVE is constantly expanding and if you are currently involved in the elevator industry we would be pleased to hear from you as a dealer or you can join a dynamic motivated team by checking our

#### A WORK OF ART

We are the Designers and Manufacturers of the Air Driven Elevator Safe, Simple, Innovative, Environmentally Friendly, Reliable and Clean

- First pneumatic vacuum elevator in the world.
- Elegant, functional and compact design.
- Revolutionary Technology.
- Two to Four stops for residential and special commercial usage.
- 6-8 hour installation.
- No excavation, no hoist way, no costly infrastructures
- No energy consumption during descent and low when ascending with 220 Volt turbines.
- Panoramic 360° visibility.
- Highest safety during power outages and freefall
- Lowest maintenance with no lubrication required.
- Exceptional price/value

Stylish & Elegant Elevators for your Home or Condominium

**Indiana  
Residential  
Elevator, Inc**

Indiana Residential  
Elevator specializes in  
Home Elevator Sales,  
Service, and

Installation. We offer installation of the Pneumatic Vacuum Elevator  
anywhere within the United States.

Pneumatic Vacuum Elevators are easy and fast to install, maintain, and  
operate than traditional elevators. For existing home applications, the  
overall cost may be much less expensive than traditional home  
elevators because a hoist way and pit are not required.

Pneumatic  
Vacuum  
Elevators are  
available only  
for home and  
condominium  
installations.

Pneumatic  
Vacuum  
Elevators use  
air pressure  
above and  
beneath the  
cab car to  
safely  
transport  
anyone up  
and  
down.

to see a  
drawing  
illustrating  
how it works.

Pneumatic  
Elevators  
offer Elegant  
Beauty with a  
purpose.

It's no surprise that NuVa is a Japanese company, because its pneumatic and compact ones we've ever seen. It offers its occupant 360° of vision on the journey up and down, and, thanks to its simple tube-like design, it could fit in a variety of locales, from homes to offices. It only fits one at a time, though, so it wouldn't do so well. Sadly, we don't know much more than how awesome this thing looks.

Check out the below for more images of the NuVa pneumatic elevator, and a video of the elevator in action by
